INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (*Head-tax status*).—Steamship lines should make no entries in this column. The space is for use of Government officials only.
Column 4 (*Age*).—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.
Column 5 (*Sex*).—The entry should be either M (male) or F (female).
Column 6 (*Married or single*).—The answer should be M (married), S (single), Wd (widowed), or D (divorced).
Column 7 (*Calling or occupation*).—The entry should describe as accurately as possible the occupation, trade, or profession of each alien arrival, as, for example: Civil engineer, stationary engineer, locomotive engineer, mining engineer, brass polisher, steel polisher, iron molder, wood turner, etc., and not simply as engineer, polisher, molder, turner, or other indefinite designations.
A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:
A farmer is one who operates a farm, either for himself or for others.
A farm laborer is one who works on a farm for the man who operates it.
Steamship companies should make this distinction on the manifests, and corrections should be made, if necessary, by inspectors and registry clerks during the personal examination of alien arrivals.
Column 8 (*Able to read and write*).—This column is subdivided and contains the following question: "Read what language for, if exemption is claimed, upon what ground?" In answering this question the language or dialect the alien is able to read should be stated. If alien is unable to read and claims exemption from the reading requirement, the ground for such exemption should be given.
Column 9 (*Nationality*).—Question 9 should be construed to mean the country of which alien is a citizen or subject.
Column 10 (*Race or people*).—See list of races printed on back of this sheet. The entry should show the race or people as given in said list.
Special attention should be paid to the distinction between race and the country of which citizen or subject, country of last permanent residence, and country of birth, and manifests should be carefully revised by inspectors and registry clerks in this regard. For instance, "France" appearing under the head of country does not mean "French" by race or people, and, similarly, "French" appearing under the head of race or people does not mean "France" by country. An Irish, German, or Hebrew alien by race might properly come under the heading of England, Switzerland, or any other country. In this connection the following distinctions should be especially observed:

CUBAN.
The term "Cuban" refers to the Cuban people (not Negroes).

WEST INDIAN.

"West Indian" refers to the people of the West Indies other than either Cubans or Negroes.

SPANISH AMERICAN.

"Spanish American" refers to the people of Central and South America of Spanish descent.

AFRICAN (BLACK).

"African (black)" refers to the African Negro, whether coming from Cuba or other islands of the West Indies, North or South America, Europe, or Africa. Any alien with admixture of blood of the African Negro should be classified under this heading.

ITALIAN (NORTH).

The people who are native to the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Venetia, and Emilia) and their descendants, whether residing in Italy, Switzerland, Austria-Hungary, or any other country, should be classed as "Italian (north)." Most of these people speak a Gallic dialect of the Italian language.

ITALIAN (SOUTH).

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Liguria, Tuscany, the Marches, Umbria, Rome, the Abruzzi and Molise, Campania, Apulia, Basilicata, Calabria, Sicily, and Sardinia) and their descendants should be classed as "Italian (south)." Column 11 (*Last permanent residence*).—Actual or an intended residence of one year shall constitute permanent residence. The last country in which alien resided with the intention of remaining one year or more shall be the last permanent residence regardless of length of actual residence therein. The entries in column 11 should show the country and city or town of last permanent residence. It is important for statistical purposes that steamship companies accurately show country of last permanent residence independent of country of temporary residence, country of birth, nationality, or race.

Country of last permanent residence of aliens who are permanent residents of the United States and are returning from a visit abroad should be recorded "United States."

Column 12 (*Name and complete address of nearest relative or friend in country whence alien came*).—The entry should give name and address of such relative. If no such relative living, give name and address of friend.

Column 13 (*Final destination*).—The answer to this question shall show the intended future permanent residence. An intended residence of one year shall constitute permanent residence. The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; country, if outside the United States.

Column 14 (*Whether having a ticket to such final destination*).—The answer should be either Yes (ticket) or No (no ticket).

Column 15 (*By whom was passage paid*).—The entry should show definitely by whom passage was paid, as self; husband, father, brother, or other relative; friend; steamship company, etc.

Column 17 (*Whether in possession of \$50, and if less, how much*).—The answer should give in each case (individual or family) the exact amount of money shown. Money brought by the head of a family should not be divided among the several members of the family.

Column 18 (*Whether ever before in the United States; and if so, when and where*).—The entries should show whether or not (Yes or No) in the United States before; and if so, the year (or period of years) and place, as, 1894-1897, Philadelphia.

Column 19 (*Whether going to join relative or friend; and if so, what relative or friend*).—The answer should show whether going to join either a relative or friend; and if so, what relative or friend, with name and complete address.

Columns 20 to 33.—These questions are self-explanatory and the answers, like all others on the sheet, are subject to revision by inspection officers in the examination of aliens. However, in answering question 25, if alien has been deported within one year and the Secretary of Labor has authorized him to reapply for admission, the authority for such reapplication should be given.

AFFIDAVIT OF SURGEON

I, Dr. Fausto Tommaso, Surgeon of the U. S. ARGENTINA,
solemnly, sincerely, and truly swear that I have had ten years' experience as a Physician
and Surgeon, and that I am entitled to practice as such by and under the authority of University
of Genoa, and that I have made a personal examination of
each of the aliens named herein, and that the foregoing Lists or Manifest Sheets, eleven in number, according
to the best of my knowledge and belief, are full, correct, and true in all particulars, relative to the mental and physical
condition of such aliens.

1. The first step in the process of identifying a problem is to determine the nature of the problem. This involves a thorough understanding of the situation and the factors that are contributing to the problem. Once the nature of the problem is understood, the next step is to identify the causes of the problem. This involves a detailed analysis of the situation and the factors that are contributing to the problem. Once the causes of the problem are identified, the next step is to develop a plan of action. This involves determining the steps that need to be taken to solve the problem. Once a plan of action is developed, the next step is to implement the plan. This involves carrying out the steps that have been determined in the plan of action. Finally, the last step in the process is to evaluate the results of the plan. This involves determining whether the plan has been successful in solving the problem and whether any further action is needed.

The same thing is also evident in the basin of the River Po in northern Italy. Here, compartments of Pliocene, Quaternary, Cretaceous, and Eocene sandstone, which are found in the Southern Alps, develop successively, at different heights, above the granite, and, in turn, are covered by Quaternary deposits. One can, therefore, observe the changes, and, in turn, the erosion.¹¹ Most of these deposits, however, are covered by the Quaternary deposits.

INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (Head-tax status).—Steamship lines should make no entries in this column. The space is for use of Government officials only.

Column 3 (Age).—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.

Column 4 (Sex).—The entry should be either M (male) or F (female).

Column 5 (Married or single).—The answer should be M (married), S (single), Wd (widowed), or D (divorced).

Column 6 (Calling or occupation).—The entry should describe as accurately as possible the occupation, trade, or profession of each alien named, as, for example, CIVIL engineer, stationary engineer, locomotive engineer, mining engineer, house painter, steel painter, iron worker, wood turner, etc., and not simply as farmer, painter, molder, cutter, or other indefinite designations.

A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:

A farmer is one who operates a farm, either for himself or for others.

A farm laborer is one who works on a farm for the man who operates it.

Steamship companies should make the distinction on the manifests, and corrections should be made, if necessary, by post-office and treasury notes during the period of examination of alien arrivals.

Column 7 (Place of birth and date).—The column should be divided and contain the following question: "Read what language (or, if exemption is claimed, upon what ground)?" In answering this question the language or dialect the alien is able to read should be stated. If alien is unable to read and obtain exemption from the reading requirement, the ground for such exemption should be given.

Column 8 (Nationality).—Question 8 should be contained in such the country of which alien is a citizen or subject.

Column 9 (Race or people).—See list of races printed on back of this sheet. The entry should show the name of the race, as, for example, Italian (north), Italian (south), etc.

Column 10 (Intended destination).—The answer to this question shall show the intended future permanent residence. An intended residence of less than one year shall be considered temporary residence. The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States, it should be stated.

Column 11 (Whether being a ticket to such final destination).—The answer should be either Yes (checked) or No (unchecked).

INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (Head-tax status).—Steamship lines should make no entries in this column. The space is for use of Government officials only.

Column 4 (Age).—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.

Column 5 (Sex).—The entry should be either M (male) or F (female).

Column 6 (Married or single).—The answer should be M (married), S (single), Wd (widowed), or D (divorced).

Column 7 (Calling or occupation).—The entry should describe as accurately as possible the occupation, trade, or profession of each alien arrived, as, for example: (1) oil engineer, stationary engineer, locomotive engineer, mining engineer, brass polisher, steel polisher, iron molder, wood turner, etc., and not simply as craftsman, polisher, molder, turner, or other indefinite designations.

A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:

A farmer is one who operates a farm, either for himself or for others.

A farm laborer is one who works on a farm for the man who operates it.

Steamship companies should make no distinction on the manifest, and corrections should be made, if necessary, by inspectors and registry clerks during the personal examination of alien arrivals.

Column 8 (Able to read and write).—This column is subdivided and contains the following question: "Read what language [or, if exemption is claimed, upon what ground]?" In answering this question the language or dialect the alien is able to read should be stated. If alien is unable to read and claims exemption from the reading requirement, the ground for such exemption should be given.

Column 9 (Nationality).—Question 9 should be construed to mean the country of which alien is a citizen or subject.

Column 10 (Race or people).—See list of races printed on back of this sheet. The entry should show the race or people as given in said list.

Special attention should be paid to the distinction between race and the country of which citizen or subject, country of last permanent residence, and country of birth, and manifests should be carefully reviewed by inspectors and registry clerks in this regard. For instance, "French" appearing under the head of country does not mean "French" by race or people, and, similarly, "French" appearing under the head of race or people does not mean "France" by country. As Irish, German, or Italian alien by race might properly come under the heading of England, Switzerland, or any other country. In this connection the following distinctions should be especially observed:

CUBAN.

The term "Cuban" refers to the Cuban people (not Negroes).

WEST INDIAN.

"West Indian" refers to the people of the West Indies other than either Cubans or Negroes.

SPANISH-AMERICAN.

"Spanish-American" refers to the people of Central and South America of Spanish descent.

AFRICAN-AMERICAN.

"African-American" refers to the African Negro, whether coming from Cuba or other islands of the West Indies, or from South America, Europe, or Africa. Any other well-defined race of the African Negro should be classified under "African."

ITALIAN (NORTH).

The people who are native to the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Venetia, and Emilia) and their descendants, whether residing in Italy, Switzerland, Austria-Hungary, or any other country, should be classed as "Italian (north)." Most of these people speak a Gallic dialect of the Italian language.

ITALIAN (SOUTH).

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Liguria, Tuscany, the Marches, Umbria, Rome, the Abruzzi and Molise, Campania, Apulia, Basilicata, Calabria, Sicily, and Sardinia) and their descendants should be classed as "Italian (south)." Actual or an intended residence of one year shall constitute permanent residence. The last country in which alien resided with the intention of remaining one year or more shall be the last permanent residence regardless of length of actual residence therein. The entries in column 11 should show the country and city or town of last permanent residence. It is important for statistical purposes that steamship companies accurately show country of last permanent residence independent of country of temporary residence, country of birth, nationality, or race.

Country of last permanent residence of aliens who are permanent residents of the United States and are returning from a visit abroad should be recorded "United States."

Column 12 (Name and complete address of nearest relative or friend in country whence alien came).—The entry should give name and address of such relative. If no such relative living, give name and address of friend.

Column 13 (Final destination).—The answer to this question shall show the intended future permanent residence. An intended residence of one year shall constitute permanent residence. The entry should show definitely the place, city or town of intended future permanent residence, if within the United States; country, if outside the United States.

Column 14 (Whether having a ticket to such final destination).—The answer should be either Yes (ticket) or No (no ticket).

Column 15 (By whom fare passage paid).—The entry should show definitely by whom passage was paid, except in case of father, brother, or sister relative, friend, steamship company, etc.

Column 16 (Fare in possession of \$50, and if so, how much).—The answer should give in each case (individual or family) the exact amount of money shown. Money brought by the head of a family should not be divided among the several members of the family.

Column 17 (Whether ever before in the United States; and if so, when and where).—The entries should show whether or not (Y or N) in the United States before; and if so, the year (or period of years) and place, as, 1890, 1895, Philadelphia.

Column 18 (Whether going to join relative or friend; and if so, what relative or friend).—The answer should show whether going to join relative or friend; and if so, what relative or friend, with name and complete address.

Column 19 (These questions are self-explanatory and the answers like all others on the sheet, are subject to revision by inspection officers in the examination of aliens. However, in answering question 19, if alien has been deported within one year and the Secretary of Labor has not ordered him to reapply for admission, the authority for such reapplication should be given.

The privately sold, five-million dollar postcard of the battle of the River Plate in 1939, depicting the sinking of the German pocket battleship, the *Bismarck*, by the British battleships HMS *Hood* and HMS *Prince of Wales*, is the only known postcard of the battle. The card was sold by a private collector to the National Archives and Records Administration in 1987. The card is a color illustration of the battle, showing the *Bismarck* being hit by the British ships. The card is a rare and valuable historical artifact, and its sale to the National Archives and Records Administration is a significant contribution to the nation's military history.

INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (Head-tax status).—Steamship lines should make no entries in this column. The space is for use of Government officials only.

Column 4 (Age).—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.

Column 5 (Sex).—The entry should be either M (male) or F (female).

Column 6 (Married or single).—The answer should be M (married), S (single), Wd (widowed), or D (divorced).

Column 7 (Calling or occupation).—The entry should describe as accurately as possible the occupation, trade, or profession of each alien-arriver, as, for example: Civil engineer, stationary engineer, locomotive engineer, miner, organizer, brass polisher, steel polisher, iron molder, wood turner, etc., and not simply as customer, painter, molder, turner, or other indefinite designations.

A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:

A farmer (one who operates a farm, either for himself or for others).

A farm laborer is one who works on a farm for the man who operates it.

Steamship passengers should make this distinction between the two and correct if necessary.

If necessary, by preparing and carrying along with the manifest a list of the following questions:

Column 8 (List of languages).—This column is subdivided and contains the following questions:

"Does what language (or, if necessary, languages) is spoken in your country?" In answering this question, the language spoken in the country of birth should be stated. If alien is unable to read and claims exemption from the manifest requirement, the ground for such exemption should be given.

Column 9 (Nationality).—Question 9 should be confined to mean the country of which alien is a citizen or subject.

Column 10 (Race or people).—See list of races printed on back of this sheet. The entry should show the race or people to which alien belongs.

Special attention should be paid to the distinction between race and the country of which citizen or subject. Country of last permanent residence and country of birth, and answers should be carefully reviewed by master and passengers in this regard. For instance, "French" appearing under the head of country does not mean "French" as race, but "French" as country. Similarly, "Italian" appearing under the head of country does not mean "Italian" as race, but "Italian" as country. In this connection, the following remarks should be especially observed:

ITALIAN.

The term "Italian" refers to the Italian people (not Spanish).

WEST INDIAN.

West Indian refers to the people of the West Indies (not other colonies or possessions).

AMERICAN.

American refers to the people of the United States (not other possessions or territories).

ITALIAN (NORTH).

The people who are native to that portion of the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Venetia, and Emilia) and their descendants, whether residing in Italy, America, land, Austria-Hungary, or any other country, should be classed as "Italian (North)." Most of these people speak a Gallic dialect of the Italian language.

ITALIAN (SOUTH).

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Calabria, Tuscany, the Marches, Umbria, Rome, the Abruzzi and Molise, Campania, Apulia, Basilicata, Calabria, Sicily, and Sardinia) and their descendants, whether residing in Italy, America, land, Austria-Hungary, or any other country, should be classed as "Italian (South)." Most of these people speak a Gallic dialect of the Italian language.

Column 11 (Last permanent residence).—Actual or assumed residence of last year shall constitute permanent residence. The last country in which alien has resided for a period of one year shall constitute permanent residence. It should show the country and city or town of last permanent residence. It is unnecessary to state the purpose of the alien's visit to the United States, or the purpose of his permanent residence in the United States.

Country of last permanent residence, if alien is a citizen or subject of the United States and is returning from a visit abroad, should be stated.

Column 12 (Name and address of nearest relative in United States).—The entry should give name and address of such relative. If no such relative living, give name and address of friend.

Column 13 (Bond destination).—The answer to this question shall show the intended future permanent residence. An intended residence of less than one year shall constitute permanent residence. The entry should show definite by the past year or years of intended future permanent residence, if within the United States; otherwise, it should be "United States."

Column 14 (Whether foreigner (not to be filled)).—The answer should be either Yes (checked) or No (unchecked).

This provides values native to the basin of the Rhone in northern Italy: i. e., compartments of Piedmont, Lombardy, Veneto, and Friuli, and the *Castellani* in the Venetian plain in Italy. A compartment, A, is a "country," or more correctly, a basin, (as claimed by "national geology.") Most of these last I speak as Guelphs, not of the United States.

The possible paleogeographic history of the Eocene P. in northern Italy (i.e., continent-wards of the present Apennine, Venetian, and Friulian high ranges) remains very controversial (e.g., Fumagalli, 1980; Fumagalli, 1982; Fumagalli, 1983; or, at least, somewhat skewed for channel as "Eocene events"). Most of these hypotheses are clearly contradicted by the Italian evidence.

The results of the analysis of the present study are in line with the results of the French Panel on employment growth in the 1990s. The French Panel found that the growth of employment in the private sector was driven by the growth of employment in the services sector, while the growth of employment in the public sector was driven by the growth of employment in the health sector. The results of the present study suggest that the growth of employment in the private sector is driven by the growth of employment in the services sector, while the growth of employment in the public sector is driven by the growth of employment in the health sector. This is consistent with the findings of the French Panel, which found that the growth of employment in the private sector was driven by the growth of employment in the services sector, while the growth of employment in the public sector was driven by the growth of employment in the health sector.

Separate sheets should be prepared for each port at which passengers embark.

The possible subgrade material in the lower of the Rhine Pa in northern Italy (i.e., compartments of Piacenza, Mantova, Verona, and Padova) and the *terracina* (i.e., terraces) in Lombardy, however, had a different character, or perhaps even a different origin, and are named as 'terracina quartze'. Most of these terraces have a coarse fabric of the Rhine facies.

This possible self-identification for their portion of Italy's south of the Po River, amongst those on the opposite shore, from whom they have been separated by the Adriatic, is a question that has been asked by the Italian people, and the Italian people have answered it.

1. The first step in the process of creating a new business is to develop a business plan. This plan should outline the company's goals, objectives, and strategies for achieving them. It should also include a detailed financial forecast, including projected revenue, expenses, and profit.

2. Once the business plan is complete, the next step is to secure financing. This can be done through a variety of sources, including banks, venture capitalists, and angel investors. Each source has its own requirements and process, so it's important to research and understand the options available.

3. After securing financing, the next step is to register the business with the appropriate government agencies. This typically involves obtaining a business license and registering the company with the state. The specific requirements vary by state, so it's important to consult with a legal professional or a business advisor.

4. Once the business is registered, the next step is to set up the company's infrastructure. This includes hiring employees, establishing a corporate governance structure, and implementing internal controls. It's important to ensure that the company is set up for long-term success and compliance with applicable laws and regulations.

5. Finally, the business is ready to launch. This involves marketing the company's products or services, building a customer base, and monitoring the company's performance. It's important to stay flexible and adapt to changes in the market and the company's needs.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

GARDNER, Secretary of the Board of Health, do solemnly, sincerely, and truly swear that I have had 10 years' experience as a Physician and Surgeon, and that I am entitled to practice as such by and under the authority of THE COMMONWEALTH OF NEW YORK, and that I have made a personal examination of each of the aliens named herein, and that the foregoing Lists or Manifest Sheet(s) in number, according to the best of my knowledge and belief, are full, correct, and true in all particulars, relative to the mental and physical condition of such aliens.

1. The first step in the process of the development of a new product is the identification of a need or a problem. This is often done by the marketing department, which conducts market research to determine what consumers want and need. The next step is to develop a concept for the product, which involves creating a detailed description of the product and its features. This is followed by the development of a business plan, which outlines the financial aspects of the product, including the costs of production and the expected sales. The final step is to develop a prototype of the product, which allows the company to test the product and make any necessary adjustments before mass production.

Figure 1 shows the results of the regression analysis. The regression coefficients are reported in the first column, the standard errors in the second column, and the t -values in the third column. The F -value for the regression is 1.10, and the adjusted R^2 is 0.00. The regression equation is $\text{Liquidity} = 0.0000 + 0.0000 \times \text{Size} + 0.0000 \times \text{Leverage} + 0.0000 \times \text{Profitability} + 0.0000 \times \text{Growth} + 0.0000 \times \text{Age} + 0.0000 \times \text{Industry} + 0.0000 \times \text{Region} + 0.0000 \times \text{Year} + 0.0000 \times \text{Constant}$. The regression equation is not significant at the 5% level of significance.

Figure 11. The system that includes both the energy dissipation mechanism and the energy storage mechanism. The system is composed of a mass m and a spring with stiffness k . The mass is displaced from its equilibrium position by a distance x . The force exerted by the spring is $F = -kx$. The work done by the spring is $W = \int F dx = -\frac{1}{2}kx^2$. The energy stored in the spring is $E = \frac{1}{2}kx^2$. The energy dissipation mechanism is represented by a dashpot with coefficient c . The force exerted by the dashpot is $F = -c\dot{x}$. The work done by the dashpot is $W = \int F \dot{x} dt = -\frac{1}{2}c\dot{x}^2$. The energy dissipated by the dashpot is $E = \frac{1}{2}c\dot{x}^2$.

ITALIAN NORTH

The people who gravitate to the banks of the River Platte northern Indian are a heterogeneous lot of French, Spanish, American, and even, occasionally, English immigrants. They are not, as a rule, of any particular nationality, but they are all of one mind. They consider themselves a distinct people, and they are right. They speak a French dialect of the Huron language.

1. The general character of the country is that of a low, rolling plain, with the highest points of the land in the south of the town of Elkhart. The land is generally covered with a growth of timber, and the soil is generally fertile. The climate is generally mild, and the weather is generally pleasant. The population is generally small, and the people are generally friendly. The economy is generally based on agriculture, and the people are generally hardworking. The culture is generally simple, and the people are generally honest. The history is generally peaceful, and the people are generally law-abiding. The future is generally bright, and the people are generally optimistic.

The people who are native to the basin of the River Po in northern Italy (i. e., components of the *popoli indigeni*, Venetian and Friulan, and their descendants, which formed the *popoli settentrionali*, German, Austrian, Slovene, and Croat) have been grouped as "Germanic" (11). Most of these people speak a dialect of the Germanic language.

1990). The authors also found that the use of a single, unidimensional measure of self-esteem was insufficient to capture the complexity of the construct. They argued that self-esteem is a multidimensional construct, and that the use of multiple measures is necessary to capture its full range of meaning. This finding has important implications for the design of self-esteem interventions, which should be tailored to address the specific dimensions of self-esteem that are most relevant to the target population.

I, H. W. Burston - Master, of the Amer. S. S. HENRY R. MALLORY, from Havana, Cuba, do solemnly, sincerely, and truly ^(Make swearer's Name & rank or official title) swear that I have caused the surgeon of said vessel sailing therewith, or the surgeon employed by the owners thereof, to make a physical and mental examination of each and all of the aliens named in the foregoing Lists or Manifest Sheets, four in number, and that from the report of said surgeon and from my own investigation, I believe that no one of said aliens is of any of the classes excluded from admission into the United States by section three of the Immigration Act, and that also, according to the best of my knowledge and belief, the information in said Lists or Manifests concerning each of said aliens named therein is correct and true in every respect.

Sworn to before me this 31st day of August, 1914
at St. Louis
W. H. Henshaw
Immigration Officer.

INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (*Head-tax status*).—Steamship lines should make no entries in this column. The space is for use of Government officials only.

Column 4 (*Age*)—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.

Column 6 (*Sex*).—The entry should be either M (male) or F (female).

(*Column 7 (Calling or occupation).*)—The entry should describe as accurately as possible the occupation, trade, or profession of each alien arrived, as, for example: civil engineer, stationary engineer, locomotive engineer, mining engineer, brass polisher, steel polisher, iron molder, wood turner, etc., and not

A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:

A farm laborer is one who works on a farm for the man who sponsors it. Stenographer companies should make this distinction in the measures, and corrections should be made, before the formal examination of such articles.

“Read what language [or, if example, “in a language which is closed upon what ground?”] In answering this question, if necessary, by inspectors and registry clerks during the formal examination of such animals.

Consent S. *Atte to and read post* — This column is intended and contains the following question: “Read what language [or, if example, “in a language which is closed upon what ground?”] In answering this question, if necessary, by inspectors and registry clerks during the formal examination of such animals.

“Read what language [or, if example, “in a language which is closed upon what ground?”] In answering this question, if necessary, by inspectors and registry clerks during the formal examination of such animals.

“Read what language you can understand,” he stated. If alien is unable to read and claims the language of the country to which he is being sent, the court for such examination should be given. (The court for such examination should be given.)

Column 4c. *Race or people*.—See list of races printed on back of this sheet. The entry should show the race or people given in and last.

Special attention should be paid to the distinction between race and the country of which citizen or subject. Country of last permanent residence and country of birth and manhood should be especially pointed out by inspectors and country clerk in this regard. For instance, "French" appearing under the country of birth and country of last permanent residence and usually, "French" appearing under

received by respondents and returned to the sender. Item 1 is a "cover" and, similarly, "Item 2" is placed under head of company sheet and item 3 "Item 3" is placed under head of company. As first, second, or third, as given by respondents, Item 4 is the signature of the sender, or any other country. In this case, the signature of the sender should be correctly inserted.

connection the following cautions should be especially observed.

The term "Cuban" refers to the Cuban people (not Negroes).

WISSE INDIAN

"Wood Index" refers to the principle of the Wood Index where there are no Cubans or Mexicans.

As a result of the above, the following is suggested as a possible mechanism for the formation of the β -phase in the $\text{PbO}-\text{CaO}$ system:

ITALIAN (NORTH).

The people who are native to the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Venetia, and Emilia) and their descendants, whether residing in Italy, Switzerland, Austria-Hungary, or any other country, should be classed as "Italian (north)." Most of these people speak a Gallic dialect of the Italian language.

ITALIAN (SOUTH).

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Liguria, Tuscany, the Marches, Umbria, Rome, the Abruzzi and Molise, Campania, Apulia, Calabria, Sicily, and Sardinia) and their descendants should be classed as "Italians (south.)"

Column 11 (*Last permanent residence*).—Actual or an intended residence of one year shall constitute permanent residence. The last country in which alien resided with the intention of remaining one year shall be entered. Residence shall be reckoned regardless of length of actual residence therein. The entries

or more shall be the last permanent residence regardless of length of actual residence therein. The entries in column 11 should show the country and city or town of last permanent residence. It is important for statistical purposes that citizenship companies accurately show country of last permanent residence independent of country of birth, country of birth, nationality, or race.

Country of last permanent residence of aliens who are permanent residents of the United States and are returning from a visit abroad should be recorded as "United States."

(column 12) *Name and complete address of nearest relative or friend in country whence alien came.*—The entry should give name and address of such relative. If no such relative living, give name and address of friend.

(column 13 (*Final destination*)).—The answer to this question shall show the intended future permanent residence. An intended residence of one year shall constitute permanent residence. The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; if outside the United States, the country.

Column 36 (Whether having a ticket to such final destination).—The answer should be either Yes (ticket) or No (no ticket).

There are three main parts of a contract: the offer, the acceptance, and the consideration. The offer is the proposal made by one party to another, and the acceptance is the agreement by the other party to the offer. The consideration is the value or benefit that is exchanged between the parties. A contract is only valid if all three elements are present. If any one of them is missing, the contract is not enforceable. For example, if a person offers to sell their car to another person, but the other person does not agree, there is no contract. Similarly, if a person offers to sell their car to another person, but the other person does not give anything in return, there is no contract. Finally, if a person offers to sell their car to another person, but the other person does not know what they are doing, there is no contract. These are the basic principles of contract law, and they are essential for understanding how contracts work.

1. The first step in the process of developing a business plan is to conduct a thorough market research. This involves identifying the target market, understanding their needs and preferences, and analyzing the competitive landscape. Market research can be conducted through various methods, including surveys, interviews, and focus groups.

1. The first thing I noticed when I stepped out of the train was the
 2. cold air. It felt like a giant hand reaching out to grab me.
 3. I shivered and pulled my coat tighter around me. The train
 4. had been warm and cozy, but this was different. This was
 5. the real world. The city was alive with people and cars,
 6. but it felt so distant. I was alone. I looked down at my
 7. suitcase and then back up at the city. I didn't know where
 8. I was going, but I knew I had to go. I took a deep breath
 9. and walked towards the city. The city was so big and so
 10. beautiful. I had heard so much about it, but it was even
 11. better than I imagined. I walked down the street, looking
 12. at all the things I had never seen before. I saw people
 13. walking dogs, people talking on their phones, people
 14. laughing and playing. I felt like I had entered a new
 15. world. I was so happy and so excited. I had finally
 16. made it. I had reached my destination. I was home.

INSTRUCTIONS FOR FILLING ALIEN MANIFESTS

Separate sheets should be prepared for each port at which passengers embark.

Column 2 (Head-tax status).—Steamship lines should make no entries in this column. The space is for use of Government officials only.

Column 4 (Age).—The answer in this column should be expressed in years or months, the latter applying only to those under 1 year of age.

Column 5 (Sex).—The entry should be either M (male) or F (female).

Column 6 (Married or single).—The answer should be M (married), S (single), Wd (widowed), or D (divorced).

Column 7 (Calling or occupation).—The entry should describe as accurately as possible the occupation, trade, or profession of each alien arrived, as, for example: Civil engineer, stationary engineer, house-painter, millwright, painter, molder, turner, or other definite designations.

A distinction should be made between farmers and farm laborers, regardless of the amount of money shown, as follows:

A farmer is one who operates a farm, either for himself or for others.

A farm laborer is one who works on a farm for the man who operates it.

Steamship companies should make this distinction in the manifests, and corrections should be made, if necessary, by passengers and others, before the physical examination of alien arrivals.

Column 8 (Date of arrival).—This column is subdivided and contains the following question:

"Read what language for: If occupation is claimed, upon what ground?" In answering this question the language on which the alien is able to read should be stated. Italian is made to read and claims exemption from the reading requirement, the ground for such exemption should be given.

Column 9 (Nationality).—Question 9 should be construed to mean the country of which alien is a citizen, or subject.

Column 10 (Race or people).—See list of races printed on back of this sheet. The entry should show the race or people as given in said list.

Every question should be paid to the distinction between race and the country of which citizen or subject avows as last permanent residence, and country of birth, and manifests should be carefully reviewed by manifest clerks and others in this regard. For instance, "French" appearing beside the head of column does not mean "French" by race or people, and, similarly, "English" signifies neither the race of the person nor the country of birth, but the country of which the person is a citizen or subject.

In this connection the following directions should be especially observed:

CUBAN.

The term "Cuban" refers to the Cuban people (not Negroes).

WEST INDIAN.

"West Indian" refers to the people of the West Indies other than either Cubans or Negroes.

SPANISH-AMERICAN.

"Spanish-American" refers to the people of Central and South America of Spanish descent.

AFRICAN-AMERICAN.

"African-American" refers to the people of Africa, Asia, and the Islands of the Pacific, and to the people of the United States of African descent.

ITALIAN (NORTH).

The people who are native to the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Veneto, and Emilia) and their descendants, whether residing in Italy, Switzerland, Austria-Hungary, or any other country, should be classed as "Italian (north)." Most of these people speak a Gallic dialect of the Italian language.

ITALIAN (SOUTH).

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Liguria, Tuscany, the Marches, Umbria, Rome, the Abruzzi and Molise, Campania, Apulia, Basilicata, Calabria, Sicily, and Sardinia) and their descendants should be classed as "Italian (south)." Their descendants should be classed as "Italian (south)." Most of these people speak a Gallic dialect of the Italian language.

Column 11 (Last permanent residence).—Actual or an intended residence of one year shall constitute permanent residence. The last country in which alien resided with the intention of remaining one year or more shall be the last permanent residence regardless of length of actual residence therein. The entries in column 11 should show the country and city or town of last permanent residence. It is important for statistical purposes that steamship companies accurately show country of last permanent residence independent of country of temporary residence, country of birth, nationality, or race.

Column 12 (Relative).—The answer to this question shall show the intended future permanent residence. An intended residence of one year shall constitute permanent residence. The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 13 (Whether having a ticket to seek final destination).—The answer should be either Yes (ticket) or No (no ticket).

Column 14 (By whom was passage paid).—The entry should show definitely by whom passage was paid, as self, husband, father, mother, or other relative, friend, steamship company, etc.

Column 15 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 16 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 17 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 18 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 19 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 20 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 21 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 22 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 23 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 24 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

Column 25 (If a ticket to seek final destination).—The entry should show definitely the place (city or town) of intended future permanent residence, if within the United States; or, if outside the United States,

IMPORTANT NOTICE TO MASTER.

These findings and those of other researchers suggest that the information processing model of the self-regulatory process is also applicable to the study of the management of one's own learning. In this case, the self-regulatory process involves the selection of a goal, the selection of a strategy, the monitoring of progress, and the evaluation of the results of the strategy.

² Several authors (and the main authors of this work) have also used the term *business* to refer to the same concept, but this has been abandoned in favor of *company* to avoid confusion with the term *business* in the sense of "activity" or "trade."

and that would be fine. I don't remember, and it's not clear that it has already happened in this country. [Source: jrc.112](#)

The people who are native to the basin of the River Po in northern Italy (i. e., compartments of Piedmont, Lombardy, Venetia, and Emilia) and their descendants, whether residing in Italy, Switzerland, Austria, Germany, or any other country, should be classed as "Italian north." Most of these people speak a dialect distinct of the Italian language.

The people who are native to that portion of Italy south of the basin of the River Po (i. e., compartments of Lombardy, Piedmont, the Marches, Liguria, Rome, the Apennines and Molise, Campania, Apulia, Basilicata, Calabria, Sicily, and Sardinia, and long distant settlements) are considered as "Italian people."

I submit that the two members of the crew, 19 of the *Agassiz*, died of typhoid fever in 1877, and that the persons named in the second report were not victims of the same disease and were not killed by it. I rely on the fact that the members of the *Agassiz* died of typhoid fever, and that the persons named in the crew manifestly died of cholera, and that the two persons named in the second report died of cholera.

The record on this case should be a good example of a good one.

There is a wide literature on the effects of stressors on the growth of *M. musculus* and *D. dentissima* (see, e.g., MATHIAS *et al.* 1992). In the present study, the growth of *M. musculus* was not affected by the addition of any of the stressors, but the growth of *D. dentissima* was reduced by the addition of any of the stressors (Table 1). The growth of *D. dentissima* was reduced by the addition of any of the stressors, but the growth of *M. musculus* was not affected by the addition of any of the stressors.

Immigration to New York

Separate sheets should be prepared for each port at which passengers embark.

[illegible]

The people's primary concern is the issue of the three P's in northern India, i.e., compartments of Pakistan, Punjab, and Kashmir, and their resolution. Some members in the assembly have suggested that the three P's should be changed to "Punjab, Kashmir, and Pakistan." Most of these proposals are a reflection of the Indian imagination.

The fourth and greatest fault, that crosses the whole length of the basin of the Upper Pacific, commencing at the mouth of the Columbia River, and extending to the Gulf of California, is the *San Andreas* fault. The basin of the Pacific is bounded by the *San Andreas* fault on the west, the *San Jacinto* fault on the south, the *San Gabriel* fault on the east, and the *San Bernardino* fault on the north. The *San Andreas* fault is the most important of the faults of the Pacific basin, and is the only one that extends for such a great distance. It is the fault that has caused the great earthquakes of the Pacific coast, and is the fault that has caused the great displacement of the Pacific coast of California. The *San Andreas* fault is the fault that has caused the great displacement of the Pacific coast of California, and is the fault that has caused the great displacement of the Pacific coast of California.

The fossils also are positive to the timing of the Upper Permian in northern Italy, i.e., contrastively of Pliensbachian, Artinskian, and Indurian, and their approximate age range is 265–250 Ma. The number of fossiliferous layers was estimated to amount to "about 100 m." Most of these probably represent a vertical extent of the Permian stage.

1. *Chlorophyll a* and *Chlorophyll b* were extracted from the leaves of *Chlorella* and *Scenedesmus* using 80% methanol. The extracts were then dried under vacuum and reconstituted in 100% methanol. The extracts were then analyzed by HPLC using a Waters 600E HPLC system with a Waters 996 fluorescence detector. The mobile phase was 10% methanol in water. The column was a Waters Nova-Pak C18 column. The flow rate was 1.0 mL/min. The detection wavelength was 680 nm. The excitation wavelength was 430 nm. The retention times for *Chlorophyll a* and *Chlorophyll b* were 12.5 and 15.5 minutes, respectively.

ITALIAN NORTH.

The people who are native to the basin of the River Po in northern Italy are, comparatively speaking, of French, Lombard, Venetian, and Ligurian descent, and the word *franc* is still used in the local dialect to denote a good white wine, about the colour of "French brandy." Most of these people speak the local dialect of the basin (unmixed).

Q. All right, so even if a vessel is considered United States from a foreign port as a part of the United States, it is not the United States from a foreign port, a part of a United States vessel. That's correct?

The specific integrations in the partitioned trace of \mathcal{P} in terms of the Hilbert $\mathcal{P} = \mathcal{P}_1 \oplus \mathcal{P}_2$ are contained in the following theorem. The proof is given in the Appendix.

Theorem 1. Let $\mathcal{P} = \mathcal{P}_1 \oplus \mathcal{P}_2$ be a partitioned trace of \mathcal{P} in terms of the Hilbert $\mathcal{P} = \mathcal{P}_1 \oplus \mathcal{P}_2$. Then the following hold:

- (1) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
- (2) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
- (3) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
- (4) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
- (5) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
- (6) The trace of \mathcal{P} is given by $\text{Tr}(\mathcal{P}) = \text{Tr}(\mathcal{P}_1) + \text{Tr}(\mathcal{P}_2)$.
